GLOBAL OUTLOOK

The global economy is set to expand 5.6 percent in 2021—its strongest post-recession pace in 80 years. This recovery is uneven and largely reflects sharp rebounds in some major economies—most notably the United States, owing to substantial fiscal support—amid highly unequal vaccine access. In many emerging market and developing economies (EMDEs), elevated COVID-19 caseloads, obstacles to vaccination, and a partial withdrawal of macroeconomic support are offsetting some of the benefits of strengthening external demand and elevated commodity prices. By 2022, global output will remain about 2 percent below pre-pandemic projections, and per capita income losses incurred last year will not be fully unwound in about two-thirds of EMDEs. The global outlook remains subject to significant downside risks, which include the possibility of large COVID-19 waves in the context of new virus variants and financial stress amid high EMDE debt levels. Controlling the pandemic at the global level will require more equitable vaccine distribution, especially for low income countries. The legacies of the pandemic exacerbate the challenges facing policy makers as they balance the need to support the recovery while safeguarding price stability and fiscal sustainability. As the recovery becomes more entrenched, policy makers also need to continue efforts toward promoting growth-enhancing reforms and steering their economies onto a green, resilient, and inclusive development path.

Following a 3.5 percent contraction caused by the COVID-19 pandemic in 2020, global economic activity has gained significant momentum; however, it remains well below pre-pandemic projections. Moreover, the recovery is uneven, passing over many poorer countries, and there is considerable uncertainty about its durability.

The ongoing pandemic continues to shape the path for global economic activity, with severe outbreaks continuing to weigh on growth in many countries. The most recent wave of COVID-19 is now centered in some emerging market and developing economies (EMDEs), where more transmissible and virulent strains are spreading and where vaccine access remains limited. Vaccination remains especially feeble in low-income countries (LICs). In contrast, advanced economies have generally seen substantial vaccination progress, which has helped limit the spread of COVID-19.

Amid continued vaccination, economic activity is firming across major advanced economies—most notably in the United States, where the recovery is being powered by substantial fiscal support.

Growth in China remains solid but has moderated as authorities have shifted their focus from buttressing activity to reducing financial stability risks. Many other countries, primarily EMDEs, are experiencing subdued pickups alongside surges of COVID-19 cases, even if recent waves of infections appear to be less disruptive to economic activity than previous ones. Recoveries in fragile and conflict-affected LICs are particularly weak, as the pandemic has exacerbated underlying challenges. Whereas global manufacturing activity has firmed, with industrial production surpassing its pre-pandemic level, services activity—especially travel and tourism—remains soft.

Global financial conditions have tightened somewhat, partly reflecting a rise in U.S. bond yields amid increased inflation pressures. Nevertheless, they remain generally supportive, reflecting continued extraordinary policy accommodation by major central banks. Commodity prices have increased markedly, owing to the improving global outlook as well as commodity-specific supply factors. The recovery in global activity and in commodity prices is contributing to an increase in inflation, especially in some EMDEs that have experienced currency depreciation.

Against this backdrop, global output growth is projected to strengthen to 5.6 percent in 2021—its strongest post-recession pace in 80 years. The recovery is underpinned by steady but highly uneven global vaccination and the associated gradual relaxation of pandemic-control measures in many countries, as well as rising confidence. A substantial share of this rebound is due to major economies, with many EMDEs lagging behind. The United States and China are each expected to contribute over one-quarter of global growth in 2021, with the U.S. contribution nearly triple its 2015-19 average. Vaccination progress is a key determinant of near-term forecast revisions. Despite the strong pickup, the level of global GDP in 2021 is expected to be 3.2 percent below pre-pandemic projections.

The recovery is envisioned to continue into 2022, with global growth moderating to 4.3 percent. Still, by 2022, global GDP is expected to remain 1.8 percent below pre-pandemic projections. Compared to recoveries from previous global recessions, the current cycle is notably uneven, with per capita GDP in many EMDEs remaining below pre-pandemic peaks for an extended period. In advanced economies, the rebound is expected to accelerate in the second half of 2021 as a broader set of economies pursue widespread vaccination and gradually reopen, with growth forecast to reach 5.4 percent this year—its fastest pace in nearly five decades. Growth is projected to moderate to 4 percent in 2022, partly as fiscal support in the United States begins to recede absent additional legislation.

Aggregate EMDE growth is forecast to reach 6 percent in 2021, as the effects of the pandemic gradually wane and as EMDEs benefit from elevated commodity prices and improving external demand. Nevertheless, the strength of the rebound this year mainly reflects robust pickups in a few large economies. In many other EMDEs, recoveries are expected to be dampened by elevated COVID-19 caseloads and obstacles to vaccine procurement and uptake, as well as by a partial withdrawal of monetary and, especially, fiscal support. Aggregate EMDE growth is projected to moderate to 4.7 percent next year, owing to the continued unwinding of fiscal support and

subdued investment, leaving EMDE output 4.1 percent below pre-pandemic projections in 2022. Among LICs, growth is expected to pick up to an average of 3.8 percent in 2021-22—well below the average pace of 5.1 percent in the 2010-19 period, and leaving the 2022 level of output 4.9 percent below pre-pandemic projections.

Notwithstanding these projected recoveries, the pandemic has had a devastating effect on per capita income growth, poverty, and inequality, which will linger for a protracted period. Although per capita income growth in EMDEs is projected to be 4.9 percent this year, it will be essentially zero in LICs. As a result, per capita income catch up with advanced economies could slow or even reverse in many poorer countries. Moreover, per capita income losses incurred in 2020 will not be fully unwound by 2022 in about two-thirds of EMDEs, including 75 percent of fragile and conflict-affected LICs. By the end of this year, it is expected that about 100 million people across EMDEs will have fallen back into extreme poverty. The pandemic's impact on poverty could reverberate for a prolonged period due to its scarring effects on long-term growth prospects. The pandemic has also exacerbated inequality as it has disproportionately affected vulnerable groups—including women, children, and unskilled and informal workers.

Moreover, the global outlook is clouded by uncertainty and subject to various risks. The continued spread of COVID-19 shows that repeated outbreaks are still possible, especially in light of the emergence of new variants that are more virulent, deadly, and resistant to vaccines. Elevated debt levels make the financial system vulnerable to a sudden increase in interest rates, which could stem from a rise in risk aversion, inflation, or expectations of faster monetary tightening. A spike in bankruptcies could damage the banking system, restrict the flow of credit, and trigger credit crunches.

The near- and longer-term consequences of the COVID-19 crisis pose enormous policy challenges. The immediate priority continues to be pandemic control, including overcoming obstacles in procuring and distributing vaccines. International cooperation is needed to help ensure timely and equitable vaccine distribution—particularly in LICs, where inoculation continues to be very slow. As the pandemic is brought under control, policy actions will also be needed to address its adverse legacies, which will require balancing competing priorities.

In many economies, central banks will need to carefully weigh the continued weakness of domestic demand against near-term inflation pressures. Model-based forecasts and inflation expectations point to an increase in inflation in 2021 that will exceed target ranges in about one half of inflation-targeting EMDEs. Although this may not warrant an aggressive policy response, additional inflation pressure across EMDEs may risk de-anchoring inflation expectations and could trigger monetary tightening despite subdued recoveries, which in some cases could also result in financial stress.

Similarly, many EMDEs will need to be careful to avoid a premature withdrawal of fiscal support, while still keeping a steady eye on medium-term debt sustainability. Given the historic increase in

sovereign debt, it will be essential to improve the efficiency of public spending. Strengthening domestic revenue mobilization and medium-term fiscal frameworks can help widen fiscal space and bolster policy credibility. Global cooperation, including private sector participation, is needed to provide debt relief to the world's poorest countries and fund the investments needed to boost growth and lower greenhouse gas emissions.

Notwithstanding the expected near-term recovery, EMDE output is likely to remain below its pre-pandemic trend for a prolonged period, as many fundamental drivers of growth have been scarred by the pandemic. A comprehensive set of policies will be required to promote a strong recovery that mitigates inequality and enhances environmental sustainability, ultimately putting economies on a path of green, resilient, and inclusive development (GRID). For example, labor market reforms and improved social safety nets can bolster labor productivity by facilitating the movement of labor toward high-growth sectors while protecting vulnerable groups. Productivity can also be boosted by efforts to increase access to digital connectivity and reduce trade costs, which are particularly elevated in EMDEs. Increasing investments in learning infrastructure and education will also be required to boost human capital and arrest recent declines in associated budgets, while expanding green investment can enhance climate resilience.

INDIAN ECONOMY OVERVIEW

India has emerged as the fastest growing major economy in the world and is expected to be one of the top three economic powers in the world over the next 10-15 years, backed by its robust democracy and strong partnerships.

Market size

India's real gross domestic product (GDP) at current prices stood at Rs. 135.13 lakh crore (US\$ 1.82 trillion) in FY21, as per the provisional estimates of annual national income for 2020-21.

India is the fourth-largest unicorn base in the world with over 21 unicorns collectively valued at US\$ 73.2 billion, as per the Hurun Global Unicorn List. By 2025, India is expected to have ~100 unicorns by 2025 and will create ~1.1 million direct jobs according to the Nasscom-Zinnov report 'Indian Tech Start-up'.

India needs to increase its rate of employment growth and create 90 million non-farm jobs between 2023 and 2030's, for productivity and economic growth according to McKinsey Global Institute. Net employment rate needs to grow by 1.5% per year from 2023 to 2030 to achieve 8-8.5% GDP growth between 2023 and 2030.

According to data from the RBI, as of the week ended on June 04, 2021, the foreign exchange reserves in India increased by US\$ 6.842 billion to reach US\$ 605 billion.

Recent Developments

With an improvement in the economic scenario, there have been investments across various sectors of the economy. Private Equity - Venture Capital (PE-VC) sector recorded investments worth US\$ 20 billion in the first five months of 2021, registering a 2x growth in value compared with the same period in 2020. Some of the important recent developments in Indian economy are as follows:

- Merchandise exports stood at US\$ 62.89 billion between April 2021 and May 2021, while imports touched US\$ 84.27 billion. The estimated value of service exports and imports between April 2021 and May 2021 stood at US\$ 35.39 billion and US\$ 19.86 billion, respectively.
- In May 2021, the Manufacturing Purchasing Managers' Index (PMI) in India stood at 50.8.
- Gross GST collections stood at Rs. 141,384 crore (US\$ 19.41 billion) in April 2021.
- Cumulative FDI equity inflows in India stood at US\$ 763.58 billion between April 2000 and March 2021. Foreign Direct Investment (FDI) inflows in India stood at US\$ 6.24 billion in April 2021, registering an increase of 38% YoY.
- India's Index of Industrial Production (IIP) for April 2021 stood at 126.6 against 143.4 for March 2021.
- Consumer Food Price Index (CFPI) – Combined inflation was 5.01 in May 2021 against 1.96 in April 2021.
- Consumer Price Index (CPI) – Combined inflation was 6.30 in May 2021 against 4.23 in April 2021.
- In June 2021, foreign portfolio investors (FPIs) turned net buyers by investing Rs. 12,714 crore (US\$ 1.71 billion) into the Indian markets. According to depositories data, between June 1, 2021 and June 25, 2021, FPIs invested Rs. 15,282 crore (US\$ 2.06 billion) in equities.

Government Initiatives

The first Union Budget of the third decade of 21st century was presented by Minister for Finance & Corporate Affairs, Ms. Nirmala Sitharaman in the Parliament on February 1, 2020. The budget aimed at energising the Indian economy through a combination of short-term, medium-term and long-term measures.

In the Union Budget 2021-22, capital expenditure for FY22 is likely to increase to increase by 34.5% at Rs.5.5 lakh crore (US\$ 75.81 billion) over FY21 (BE) to boost the economy.

Increased government expenditure is expected to attract private investments, with production-linked incentive scheme providing excellent opportunities. Consistently proactive, graded and measured policy support is anticipated to boost the Indian economy.

In May 2021, the government approved the production linked incentive (PLI) scheme for manufacturing advanced chemistry cell (ACC) batteries at an estimated outlay of Rs.18,100 crore (US\$ 2.44 billion); this move is expected to attract domestic and foreign investments worth Rs.45,000 crore (US\$ 6.07 billion).

The Union Cabinet approved the production linked incentive (PLI) scheme for white goods (air conditioners and LED lights) with a budgetary outlay of Rs.6,238 crore (US\$ 848.96 million) and the 'National Programme on High Efficiency Solar PV (Photo Voltic) Modules' with an outlay of Rs.4,500 crore US\$ 612.43 million).

In June 2021, the RBI (Reserve Bank of India) announced that the investment limit for FPI (foreign portfolio investors) in the State Development Loans (SDLs) and government securities (G-secs) would persist unaffected at 2% and 6%, respectively, in FY22.

To boost the overall audit quality, transparency and add value to businesses, in April 2021, the RBI issued a notice on new norms to appoint statutory and central auditors for commercial banks, large urban co-operatives and large non-banks and housing finance firms.

In May 2021, the Government of India has allocated Rs.2,250 crore (US\$ 306.80 million) for development of the horticulture sector in 2021-22.

In November 2020, the Government of India announced Rs.2.65 lakh crore (US\$ 36 billion) stimulus package to generate job opportunities and provide liquidity support to various sectors such as tourism, aviation, construction and housing. Also, India's cabinet approved the production-linked incentives (PLI) scheme to provide ~Rs.2 trillion (US\$ 27 billion) over five years to create jobs and boost production in the country.

Numerous foreign companies are setting up their facilities in India on account of various Government initiatives like Make in India and Digital India. Mr. Narendra Modi, Prime Minister of India, launched Make in India initiative with an aim to boost country's manufacturing sector and increase purchasing power of an average Indian consumer, which would further drive demand and spur development, thus benefiting investors. The Government of India, under its Make in India initiative, is trying to boost the contribution made by the manufacturing sector with an aim to take it to 25% of the GDP from the current 17%. Besides, the Government has also come up with Digital India initiative, which focuses on three core components: creation of digital infrastructure, delivering services digitally and to increase the digital literacy.

Some of the recent initiatives and developments undertaken by the Government are listed below:

- In June 2021, RBI Governor, Mr. Shaktikanta Das announced the policy repo rate unchanged at 4%. He also announced various measures including Rs.15,000 crore (US\$ 2.05 billion) liquidity support to contact-intensive sectors such as tourism and hospitality.
- In June 2021, Finance Ministers of G-7 countries, including the US, the UK, Japan, Italy, Germany, France and Canada, attained a historic contract on taxing multinational firms as per which the minimum global tax rate would be at least 15%. The move is expected to benefit India to increase foreign direct investments in the country.
- In June 2021, the Indian government signed a US\$ 32 million loan with World Bank for improving healthcare services in Mizoram.
- In May 2021, the Government of India (GoI) and European Investment Bank (EIB) signed the finance contract for second tranche of EUR 150 million (US\$ 182.30 million) for Pune Metro Rail project.
- According to an official source, as of June 2021, 29 companies including global electronics manufacturing organisations, such as companies Foxconn, Sanmina SCI, Flex, Jabil Circuit, have registered under the Rs.12,195 crore (US\$ 1.64 billion) production linked incentive scheme for the telecom sector.
- In May 2021, Union Cabinet has approved the signing of memorandum of understanding (MoU) on migration and mobility partnership between the Government of India, the United Kingdom of Great Britain and Northern Ireland.
- In April 2021, Minister for Railways and Commerce & Industry and Consumer Affairs, Food & Public Distribution, Mr. Piyush Goyal, launched 'DGFT Trade Facilitation' app to provide instant access to exporters/importers anytime and anywhere.
- In April 2021, Dr. Ahmed Abdul Rahman AlBanna, Ambassador of the UAE to India and Founding Patron of IFICC, stated that trilateral trade between India, the UAE and Israel is expected to reach US\$ 110 billion by 2030.
- India is expected to attract investment of around US\$ 100 billion in developing the oil and gas infrastructure during 2019-23.
- The Government of India is going to increase public health spending to 2.5% of the GDP by 2025.
- For implementation of Agriculture Export Policy, Government approved an outlay Rs.2.068 billion (US\$ 29.59 million) for 2019, aimed at doubling farmers income by 2022.

Road Ahead

As indicated by provisional estimates released by the National Statistical Office (NSO), India posted a V-shaped recovery in the second half of FY21. As per these estimates, India registered an increase of 1.1% in the second half of FY21; this was driven by the gradual and phased unlocking of industrial activities, increased investments and growth in government expenditure.

As per the Reserve Bank of India's (RBI) estimates, India's real GDP growth is projected at 9.5% in FY22; this includes 18.5% increase in the first quarter of FY22; 7.9% growth in the second quarter of FY22; 7.2% rise in the third quarter of FY22 and 6.6% growth in the fourth quarter of FY22.

India is focusing on renewable sources to generate energy. It is planning to achieve 40% of its energy from non-fossil sources by 2030, which is currently 30% and have plans to increase its renewable energy capacity from 175 gigawatt (GW) by 2022. In line with this, in May 2021, India, along with the UK, jointly launched a 'Roadmap 2030' to collaborate and combat climate change by 2030.

India is expected to be the third largest consumer economy as its consumption may triple to US\$ 4 trillion by 2025, owing to shift in consumer behaviour and expenditure pattern, according to a Boston Consulting Group (BCG) report. It is estimated to surpass USA to become the second largest economy in terms of purchasing power parity (PPP) by 2040 as per a report by PricewaterhouseCoopers.

GEMS AND JEWELLERY INDUSTRY

As of January 2021, India's gold and diamond trade contributed ~7.5% to India's Gross Domestic Product (GDP) and 14% to India's total merchandise exports. The gem and jewellery sector is likely to employ ~8.23 million persons by 2022, from ~5 million in 2020.

Based on its potential for growth and value addition, the Government declared gems and jewellery sector as a focus area for export promotion. The Government has undertaken various measures recently to promote investment and upgrade technology and skills to promote 'Brand India' in the international market.

The Government has permitted 100% FDI in the sector under the automatic route, wherein the foreign investor or the Indian company do not require any prior approval from the Reserve Bank or Government of India.

Market size

In FY21, exports of gems & jewellery stood at US\$ 25.30 billion. In March 2021, exports of gems & jewellery stood at US\$ 3.42 billion.

In April 2021, India exported gems & jewellery worth US\$ 3.37 billion compared with US\$ 36.11 million in April 2020.

In September 2020, the US was the largest country (at 44%) to import gems and jewellery (US\$ 938.54 million) from India, followed by Hong Kong (~33%) and the UAE (~13%).

In FY21, imports of gems & jewellery stood at US\$ 16.49 billion. Imports of gold jewellery recorded US\$ 262.25 million from April 2020 to February 2021.

In April 2021, India imported gems & jewellery worth US\$ 2.19 billion compared with US\$ 2.27 billion in April 2020.

Investments/Developments

Cumulative FDI inflows in diamond and gold ornaments in India stood at US\$ 1,190.47 million between April 2000 and December 2020 according to Department for Promotion of Industry and Internal Trade (DPIIT).

Some of the key developments in this industry are listed below:

- In February 2021, Reliance expanded its e-commerce arm, JioMart, to jewellery with silver coins of 5gm and 10 gm, and gold coins of 1gm, 5gm and 10gm.
- Reliance's in-house jewellery brand, Reliance Jewels, which has ~93 flagship showrooms and 110 shop-in-shops in 105 cities in the country, will fulfil the orders for the new segment.
- In November 2020, Platinum Guild International (PGI) launched their new 'Men of Platinum' collection for men in leading retail stores across India.
- Jewellery players in India are re-evaluating the brick-and-mortar business model and planning to implement omni-channel approach with focus on digital strategy to boost sales.
- According to the 'Online Gold Market in India' report by The World Gold Council, the online gold market in India, with relatively nascent at 1-2% (as of 2020), is witnessing a strong push from both digital players who view this market as an opportunity and large jewellers who view this market as a required addition to their brick-and-mortar model.
- Maximum development was driven by MSEs in gems & jewellery and textiles. In November 2020, adoption of digital distribution platforms among manufacturers of gems and jewellery, manufacturing mostly non-precious, stone-studded jewellery, imitation jewellery and luxury fashion jewellery, more than quadrupled to 55% from 13% before the pandemic. The segment's micro enterprises recorded the highest boost of 41%, from the previous 13%.

Government Initiatives

- The government has reduced import duty for Gold & Silver (from 12.5% to 7.5%) and Platinum & Palladium (from 12.5% to 10%) to bring down the prices of precious metals in the local market.
- Indian Government made hallmarking mandatory for Gold Jewellery and Artefacts. A period of one year is provided for implementation i.e. till January 2021.
- In December 2020, All India Gem and Jewellery Domestic Council (GJC) welcomed the decision to make hallmarking compulsory from June 2021 in a phased manner; urged the government to examine the key concerns of the industry for smooth implementation of the initiative.
- In December 2020, the Finance Ministry notified that the amendment under Prevention of Money Laundering Act (PMLA), notifying dealers in precious metals and stones, will maintain records of cash transactions worth Rs. 10 lakh (US\$ 13.61 thousand) or more cumulatively with a single customer.

Road Ahead

In the coming years, growth in gems and jewellery sector would largely be contributed by the development of large retailers/brands. Established brands are guiding the organised market and are opening opportunities to grow. Increasing penetration of organised players provides variety in terms of products and designs. Online sales are expected to account for 1–2% of the fine jewellery segment by 2021–22. Also, the relaxation of restrictions of gold import is likely to provide a fillip to the industry. The improvement in availability along with the reintroduction of low-cost gold metal loans and likely stabilisation of gold prices at lower levels is expected to drive volume growth for jewellers over short to medium term. The demand for jewellery is expected to be significantly supported by the recent positive developments in the industry.

INDIAN REAL ESTATE INDUSTRY

Real estate sector is one of the most globally recognized sectors. It comprises of four sub sectors - housing, retail, hospitality, and commercial. The growth of this sector is well complemented by the growth in the corporate environment and the demand for office space as well as urban and semi-urban accommodations. The construction industry ranks third among the 14 major sectors in terms of direct, indirect and induced effects in all sectors of the economy.

In India, the real estate sector is the second-highest employment generator, after the agriculture sector. It is also expected that this sector will incur more non-resident Indian (NRI) investment, both in the short term and the long term. Bengaluru is expected to be the most favoured property

investment destination for NRIs, followed by Ahmedabad, Pune, Chennai, Goa, Delhi and Dehradun.

Market Size

By 2040, real estate market will grow to Rs. 65,000 crore (US\$ 9.30 billion) from Rs. 12,000 crore (US\$ 1.72 billion) in 2019. Real estate sector in India is expected to reach a market size of US\$ 1 trillion by 2030 from US\$ 120 billion in 2017 and contribute 13% to the country's GDP by 2025. Retail, hospitality, and commercial real estate are also growing significantly, providing the much-needed infrastructure for India's growing needs.

The office market in top eight cities recorded transactions of 22.2 msf from July 2020 to December 2020, whereas new completions were recorded at 17.2 msf in the same period. In terms of share of sectoral occupiers, Information Technology (IT/ITeS) sector dominated with a 41% share in second half of 2020, followed by BSFI and Manufacturing sectors with 16% each, while Other Services and Co-working sectors recorded 17% and 10%, respectively.

In 2020, the manufacturing sector accounted for 24% of office space leasing at 5.7 million square feet. SMEs and electronic component manufacturers leased the most between Pune, Chennai and Delhi NCR, followed by auto sector leasing in Chennai, Ahmedabad and Pune. The 3PL, e-commerce and retail segments accounted for 34%, 26% and 9% of office space leases, respectively. Of the total PE investments in real estate in Q4 FY21, the office segment attracted 71% share, followed by retail at 15% and residential and warehousing with 7% each.

Retail real estate and warehousing segment attracted private equity (PE) investments of US\$ 220 million and US\$ 971 million, respectively, in 2020. Grade-A office space absorption is expected to cross 700 msf by 2022, with Delhi-NCR contributing the most to this demand.

Housing launches were 86,139 units across the top eight Indian cities in the second half of 2020. Home sales volume across eight major cities in India jumped by 2x to 61,593 units from October 2020 to December 2020, compared with 33,403 units in the previous quarter, signifying healthy recovery post the strict lockdown imposed in the second quarter due to the spread of COVID-19 in the country.

According to the Economic Times Housing Finance Summit, about 3 houses are built per 1,000 people per year compared with the required construction rate of five houses per 1,000 population. The current shortage of housing in urban areas is estimated to be ~10 million units. An additional 25 million units of affordable housing are required by 2030 to meet the growth in the country's urban population.

Investments/Developments

Indian real estate sector has witnessed high growth in the recent times with rise in demand for office as well as residential spaces. Indian real estate attracted US\$ 5 billion institutional investments in 2020, equivalent to 93% of transactions recorded in the previous year. Investments from private equity (PE) players and VC funds reached US\$ 4.06 billion in 2020. The real estate segment attracted private equity investments worth Rs. 23,946 crore (US\$ 3,241 million) across 19 deals in Q4 FY21. Investments in the sector grew 16x compared with Rs. 1,470 crore (US\$ 199 million) in Q4 FY20. In value terms, these investments were 80% of that in 2020 and 48% of 2019, according to a report by Knight Frank.

Exports from SEZs reached Rs. 7.96 lakh crore (US\$ 113.0 billion) in FY20 and grew ~13.6% from Rs. 7.1 lakh crore (US\$ 100.3 billion) in FY19.

According to the data released by Department for Promotion of Industry and Internal Trade Policy (DPIIT), construction is the third-largest sector in terms of FDI inflow. FDI in the sector (including construction development and construction activities) stood at US\$ 42.97 billion between April 2000 and September 2020.

Some of the major investments and developments in this sector are as follows:

- According to a JLL Report, Delhi-NCR witnessed a 5% increase in net absorption of office space in the first quarter of FY20 on a QoQ basis with 1.07 million sq. ft.
- India's flexible space stock is likely to expand by 10-15% YoY, from the current 36 million sq. ft., in the next three years, according to a report by CBRE.
- In the top seven cities, housing sales increased by 29% and new launches by 51% in the fourth quarter of FY21. Delhi-NCR, Mumbai, Bengaluru and Pune together accounted for 83% sales in the same quarter.
- The performance of micro-markets in the Delhi-NCR region, including Noida and Gurgaon, posted a double-digit expansion in property appreciation prices with 11% and 13%, respectively, growth.
- According to Anarock, housing sales in seven cities increased by 29% and new launches by 51% in Q4 FY21 over Q4 FY20
- Demand for residential real estate revived in Q4 FY21 as homebuyers took advantage of low mortgage rates and incentives rendered by developers. Residential sales in this quarter recovered to >90% volumes recorded in 2020 across the top seven cities.
- Blackstone is one of the largest private market investors in India, managing about Rs. 3,694 crore (US\$ 50 billion) of market value in the real estate sector. The company anticipates investing >Rs. 1,625 crore (US\$ 22 billion) in the next 10 years.
- In 2021, working remotely is being adopted at a fast pace and demand for affordable houses with ticket size below Rs. 40-50 lakh is expected to rise in Tier 2 and 3 cities, leading to an increase in prices in those geographies.

- In April 2021, HDFC Capital Advisors (HDFC Capital) partnered with Cerberus Capital Management (Cerberus) to create a platform that will focus on high-yield opportunities in the residential real estate sector in India. The platform seeks to purchase inventory and provide last-mile funding for under construction residential projects across the country.
- In March 2021, Godrej Properties announced it would launch 10 new real estate projects in Q4.
- In March 2021, Godrej Properties increased its equity stake in Godrej Realty from 51% to 100% by acquiring equity shares from HDFC Venture Trustee Company.

Government Initiatives

Government of India along with the governments of respective States has taken several initiatives to encourage development in the sector. The Smart City Project, with a plan to build 100 smart cities, is a prime opportunity for real estate companies. Below are some of the other major Government initiatives:

- Under Union Budget 2021-22, tax deduction up to Rs.1.5 lakh (US\$ 2069.89) on interest on housing loan, and tax holiday for affordable housing projects have been extended until the end of fiscal 2021-22.
- The Atmanirbhar Bharat 3.0 package announced by Finance Minister Mrs. Nirmala Sitharaman in November 2020 included income tax relief measures for real estate developers and homebuyers for primary purchase/sale of residential units of value (up to Rs. 2 crore (US\$ 271,450.60) from November 12, 2020 to June 30, 2021).
- In October 2020, the Ministry of Housing and Urban Affairs (MoHUA) launched an affordable rental housing complex portal.
- On October 27, 2020, the government announced the application of Real Estate (Regulation & Development) Act, 2016 in the union territory of Jammu & Kashmir. This has paved the way for any Indian citizen to buy non-agricultural land and property, as opposed to the eligibility of only local residents earlier.
- In order to revive around 1,600 stalled housing projects across top cities in the country, the Union Cabinet has approved the setting up of Rs.25,000 crore (US\$ 3.58 billion) alternative investment fund (AIF).
- Government has created an Affordable Housing Fund (AHF) in the National Housing Bank (NHB) with an initial corpus of Rs.10,000 crore (US\$ 1.43 billion) using priority sector lending short fall of banks/financial institutions for micro financing of the HFCs.
- As of January 31, 2021, India formally approved 425 SEZs, of which 265 were already operational. Most special economic zones (SEZs) are in the IT/ BPM sector.

Road Ahead

The Securities and Exchange Board of India (SEBI) has given its approval for the Real Estate Investment Trust (REIT) platform, which will allow all kind of investors to invest in the Indian real estate market. It would create an opportunity worth Rs. 1.25 trillion (US\$ 19.65 billion) in the Indian market in the coming years. Responding to an increasingly well-informed consumer base and bearing in mind the aspect of globalisation, Indian real estate developers have shifted gears and accepted fresh challenges. The most marked change has been the shift from family owned

businesses to that of professionally managed ones. Real estate developers, in meeting the growing need for managing multiple projects across cities, are also investing in centralised processes to source material and organise manpower and hiring qualified professionals in areas like project management, architecture and engineering.

The residential sector is expected to grow significantly, with the central government aiming to build 20 million affordable houses in urban areas across the country by 2022, under the ambitious Pradhan Mantri Awas Yojana (PMAY) scheme of the Union Ministry of Housing and Urban Affairs. Expected growth in the number of housing units in urban areas will increase the demand for commercial and retail office space.

The current shortage of housing in urban areas is estimated to be ~10 million units. An additional 25 million units of affordable housing are required by 2030 to meet the growth in the country's urban population.

The growing flow of FDI in Indian real estate is encouraging increased transparency. Developers, in order to attract funding, have revamped their accounting and management systems to meet due diligence standards. Indian real estate is expected to attract a substantial amount of FDI in the next two years with US\$ 8 billion capital infusion by FY22.

Note: Conversion rate used in January 2021, Rs. 1 = US\$ 0.0137

SWOT ANALYSIS OF OUR COMPANY

Strengths

- Experienced and resourceful promoters having diversified business interest
- Availability of raw material in the local market or purchasing of old jewels
- Availability of Low cost and skilled technical and professional Manpower
- Comfortable capital structure with below unity gearing level
- High-quality jewellery at competitive prices

Weaknesses

- Moderate scale of operations and thin profit margins
- Weak debt coverage indicators
- Highly working capital-intensive nature of operation leading to 90% utilization of working capital bank borrowings.
- Project funding and execution risk
- Susceptibility of margins to volatile raw material prices

- Presence in highly fragmented, nature driven and competitive gems & jewellery industry

Opportunities

- Encasing the reputation for development in another area.
- High and increasing purchasing power of the people
- Expansion of business in real estate activities

Threats

- The injection of fresh, creative designs in a somewhat stagnant industry
- Fluctuation in Gold prices
- High entry cost in the newer markets.
- Competition from family owned business in this sector
- Competition with big real estates groups.

RISKS AND CONCERNs

The Indian economy is on a high growth trajectory, with several favourable macroeconomic indicators supporting the growth momentum. The jewellery industry is expected to benefit from the recent developments in the economy. Higher income in the hands of farmers and rural population, driven by normal monsoon forecast, will translate into robust spending and consumption, thus fuelling the demand for jewellery. Frequent regulatory changes and fluctuations in gold and commodity prices may pose a challenge to the Company's margins. Presence of unorganised players and expansion of regional players results in intense competition in the jewellery industry.

SECRETARIAL AUDIT REPORT

for the Financial Year ended March 31, 2020

[Pursuant to Section 204(1) of the Companies Act, 2013 and Rule No. 9 of the Companies
(Appointment and Remuneration of Managerial Personnel) Rules, 2014]

To,
The Members,
LAXMI GOLDORNA HOUSE LIMITED
Laxmi House, Opp. Bandharano Khacho,
M G Haveli Road, Manek Chowk,
Ahmedabad – 380001.

I have conducted the Secretarial Audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by LAXMI GOLDORNA HOUSE LIMITED (CIN: L36911GJ2010PLC059127) (hereinafter called the Company). Secretarial Audit was conducted in a manner that provided us a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing my opinion thereon.

Based on my verification of the books, papers, minute books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial audit, the explanations and clarifications given to us and the representations made by the Management and considering the relaxations granted by the Ministry of Corporate Affairs and Securities and Exchange Board of India warranted due to the spread of the COVID-19 pandemic, I hereby report that in my opinion, the Company has, during the audit period covering the financial year ended on March 31, 2021, complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

I have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the financial year ended on March 31, 2021 and made available to me, according to the provisions of:

-
- i) The Companies Act, 2013 (the Act) and the rules made thereunder;
 - ii) The Securities Contracts (Regulation) Act, 1956 ('SCRA') and the rules made thereunder;
 - iii) The Depositories Act, 1996 and the Regulations and bye-laws framed thereunder;
 - iv) Foreign Exchange Management Act, 1999 and the rules and regulations made thereunder to the extent of Foreign Direct Investment and Overseas Direct Investment (**Not applicable to the Company during the audit period**);
- v) The following Regulations and Guidelines prescribed under Securities and Exchange Board of India Act, 1992 ('SEBI Act'):
- a) The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011
 - b) The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015
 - c) The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements)
 - d) Regulations, 2009/2018;
 - e) The Securities and Exchange Board of India (Share Based Employee Benefits) Regulations, 2014 (**Not applicable to the Company during the audit period**);
 - f) The Securities and Exchange Board of India (Issue and Listing of Debt Securities) Regulations, 2008 (**Not applicable to the Company during the audit period**);
 - g) The Securities and Exchange Board of India (Registrars to an Issue and Share Transfer Agents) Regulations, 1993 regarding the Companies Act and dealing with client;
 - h) The Securities and Exchange Board of India (Buyback of Securities) Regulations, 1998/2018; (**Not applicable to the Company during the audit period**);
 - i) The Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2009 (**Not applicable to the Company during the audit period**);
 - j) The Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, pursuant to the Uniform Listing Agreement of the Company entered into with NSE Emerge SME Platform;

I have also examined compliance with the Secretarial Standards issued by the Institute of Company Secretaries of India (SS -1 and SS - 2).

I further report that, having regard to the compliance system prevailing in the Company and on examination of the relevant documents and records in pursuance thereof on test-check basis, the Company has complied with the following laws applicable specifically to the Company namely:

- a) The Bureau of Indian Standards Act, 2016 erstwhile Bureau of Indian Standards Act, 1986;

Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation and presentation of these standalone financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these standalone financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made there under.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances.

An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at **31st March 2021** and its profit and its cash flows for the year ended on that date.

ANNEXURE B TO THE AUDITOR'S REPORT

Report on the Internal Financial Controls under Clause (i) of sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

We have audited the internal financial controls over financial reporting of **LAXMI GOLDORNA HOUSE LIMITED** ('the Company') as of **31st March 2021** in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting ('the Guidance Note') and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditors' judgment, including the

assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of the management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at **31st March 2021**, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.
